Local Government conference set to inspire delegates to collaborate

The Local Government Professionals Tas covid safe in-person annual conference is taking place at the Eastcoaster Tasmania, Orford from Wednesday 27 to Friday 29 October.

The annual conference is the highlight on the LG Professionals calendar. It provides an opportunity for local government officers from across the state to access professional development opportunities and gain exposure to emerging issues and trends that are relevant to the sector.

The theme of this year's conference is **Working Together – Our Future is Today** and focuses on establishing meaningful connections and working collaboratively to cultivate positive change.

The conference will inspire our delegates to work together by sharing their expertise to benefit our local communities whilst strengthening their capabilities through professional development and networking opportunities.

The [conference program](#) line up has two keynote speakers; Shane Gould AM MBE, Australian Olympic Swimming Champion and Bernadette Black AM, CEO & Founding Director, Brave Foundation. They lead a comprehensive list of Tasmanian speakers presenting on collaboration and related themes. The speaking sessions also include real case studies about how partnerships and sharing solutions help to build stronger communities.

About LG Professionals Tasmania

Local Government Professionals Tas is the peak body, membership association and leading voice for professionals working in local government in Tasmania. It provides members with high-quality professional development activities, represents their views and facilitates networking and communications between members and relevant organisations.

Local Government Professionals Tas aims to ensure that local government staff continue to develop and improve; that the highest professional and ethical standards are maintained and that our members are at the forefront of change and innovation.
